DIPLOMA PROGRAMMES IN TERTIARY INSTITUTIONS

You should note that admissions will flow from University programmes to the programmes offered by other tertiary institutions. You will only be considered for what you have applied for, so candidates should endeavour to make appropriate choices. Attention is particularly drawn to the following:

1. The minimum entry requirement for all Diploma programmes is one principal pass and two subsidiaries in all combinations including subsidiary computer and mathematics (1P, 2s)

2. The subject requirements and cut off weights for programmes offered at Tertiary Institutions 2027/2028 are in table II- III. Study the tables before applying to any of the Tertiary Institutions.

3. Use the 4 figure numerical codes (**course and college codes**) given in Table 1 to apply for colleges of your choice. The first two digits are for the course and next two for the college offering that course.
   Please note that there will be no change of colleges after admissions have been done. If you cannot go to a particular college for one reason or another then do not apply to it. If you apply to it and get admitted but fail to take-up the place, you will have blocked a place for somebody else. Note that your insistence for admission to particular college may lead to your not being admitted at all.

4. Uganda Colleges of Commerce (UCCs) offer Uganda Diploma in Business studies (UDBS) as a programme with the options of: - (i) Marketing (ii) Accounting (iii) Stores Management (IV) Purchasing and Supplies Management (V) Clearing and forwarding.

Note: Once a candidate is admitted on Government or Private Sponsorship in Public Universities; he/she becomes automatically ineligible for consideration for Diploma in Public Other Tertiary Institutions. Therefore, one should not apply for private sponsored in Public Universities if they wish to be considered for Government support for diplomas in Public Other Tertiary Institutions.
